Official Newsletter of the Town of Lake Park, Florida

Volume 2, Issue 2

535 Park Avenue, Lake Park, Florida 33403

## TOP STORY

### ShotSpotter Approved By Town Commission

The Town Commission is moving forward to install ShotSpotter technology in strategic locations throughout Lake Park.

ShotSpotter is a system that identifies where a weapon has been fired and immediately sends the information to law enforcement responding to the scene.

The system is part of a greater campaign by the Town to create a state-of-the-art public safety system. Other efforts include a network of cameras as well as license plate readers.

The Commission approved a 5-year deal for the ShotSpotter system. The cost of the system is being covered by existing funds, including unused salary and reserves.

## Other Town News

PBSO getting some new wheels as part of enhanced community policing

As part of the Town Community Redevelopment Agency's commitment to community policing, be on the look out for PBSO deputies patrolling downtown Lake Park in a new open air golf cart.

The new "ride" will help deputies cover more ground while being more accessible and approachable than if they were in a car.

The downtown patrols are part of extra security in the downtown area.

The new golf cart could look similar to the one pictured above, but may differ slightly.

## Bert Bostrom alive again with the sounds of kids

Have you been by Bert Bostrom Park lately? If not, you're missing out on the wonderful sounds of our local children once again playing in the park. It is all because the Town recently finished installing brand new playground equipment. Come out and enjoy! Bert Bostrom Park is located at 311 7th street.
