

SEACOAST UTILITY AUTHORITY - US-1 SOUTH WATER AND SEWER FORCE MAIN REPLACEMENT NEWSLETTER

Issued May 1, 2023

email: capitalprojects@sua.com

This project is critical to ensuring the long-term reliability of the water and wastewater infrastructure along US-1. The proposed improvements will help ensure the anticipated redevelopment of the US-1 corridor will not adversely impact existing water and sewer service. The goal of this newsletter is to enhance community awareness and keep our customers apprised of project progress through ongoing construction updates. This newsletter is updated regularly and provided to municipal entities.

What's Happening On-Site

- The Contractor has installed new water main along US-1, Shore Court, and the westside of Palmetto Drive.
- Temporary water mains continue to aid crews as new waterlines are constructed.

Looking Ahead

- Full closure at Shore Court and US-1 expected early May as crosswalk is restored.
- US-1 Outside northbound lane closures expected throughout May as water main replacement and sidewalk restoration continues.
- Construction also planned to take place along Palmetto Drive and at the Bayberry Drive & Cypress Drive, US-1 intersections.
- The next newsletter will be issued June 1, 2023.

Schedule

On-site construction began in late February 2023 and will extend through approximately September 2023.

Construction Area

The Seacoast Utility Authority is upgrading water and sewer infrastructure along US-1 from Silver Beach Road to the Earman River. The map to the right illustrates the construction area.

Lane Closures

Short-term lane closures will be required throughout the construction area during the project.

The approximate location of lane closures expected in the month of May are shown in blue.

Daytime lane closures will include the closure of a single outside lane.

Nighttime lane closures, when used, may require closure of two or more lanes.
