

SEACOAST UTILITY AUTHORITY - US-1 SOUTH WATER AND SEWER FORCE MAIN REPLACEMENT NEWSLETTER

Issued September 1, 2023

email: capitalprojects@sua.com

This project is critical to ensuring the long-term reliability of the water and wastewater infrastructure along US-1. The proposed improvements will help ensure the anticipated redevelopment of the US-1 corridor will not adversely impact existing water and sewer service. The goal of this newsletter is to enhance community awareness and keep our customers apprised of project progress through ongoing construction updates. This newsletter is updated regularly and provided to municipal entities.

What's Happening On-Site

- The Contractor has completed gravity sewer modifications in Kelsey Park, thus removing the by-pass system followed by site grading and restorations.
- All piping work has been completed, along with grouting of all abandoned pipe segments within the project area.

Looking Ahead

- As the end of the project approaches, sidewalk, driveway, and sodding restorations will continue.
- "Punch list" items to continue throughout the month of September.
- Asphalt milling and paving are expected to occur during the nights of September 5 – 7.

Schedule

On-site construction began in late February 2023 and will extend through approximately the end of September 2023.

Construction Area

The Seacoast Utility Authority is upgrading water and sewer infrastructure along US-1 from Silver Beach Road to the Earman River. The map to the right illustrates the construction area.

Lane Closures

Short-term lane closures will be required throughout the construction area during the project.

The approximate location of lane closures expected in the month of September are shown in red.

Daytime lane closures will include the closure of a single outside lane.

Nighttime lane closures, when used, may require closure of two or more lanes.
