Trees in Swales

Mayor Castro provided his suggestions regarding trees in the swales. Mayor Castro spoke about the possible dangers and liabilities associated with trees in the swales.

Town Manager Paul Carlisle stated that a lot of criteria would need to be developed regarding trees in swales such as minimum height requirements, species of trees, distance between trees, and penalties for not maintaining the trees.

Mayor Castro stated that the criteria must be very specific with regards to the species of trees allowed in swales.

Commissioner Balius recommended that swales that do not currently have trees be re-contoured to accept water.

Town Manager Paul Carlisle stated that Public Works had been in the process of re-contouring swales.

Commissioner Carey expressed safety concerns over trees that are not maintained and may block a stop sign and asked if there would be a penalty for un-maintained trees.

Town Manager Paul Carlisle stated a maintenance standard or requirement would have to be stated in the ordinance.

Public Comment

The following person(s) addressed the Commission:

Trudy Gomez, 546 Foresteria Dr. – Mrs. Gomez stated that she felt strongly about her palm trees and wanted to re-plant them in her swale. Mrs. Gomez stated that she spoke with the North Palm Beach Code Enforcement Department and obtained their ordinance and criteria regarding planting of trees in the swales. Mrs. Gomez quoted the North Palm Beach swale ordinance to the Commission. Mrs. Gomez stated that she had never had drainage problems in her swale in twenty-four (24) years.

Mayor Castro explained why the City of Palm Beach allows trees in swales and the difference in the swales compared to Lake Park.

Ms. Gomez felt a distance of 25 to 30 feet between trees would be too much and did not look good. She expressed her love for trees and asked the Commission to help residents save their trees.

Milan & Rhonda Buncome, 1005 7th St. – Mrs. Buncome stated that code enforcement had them remove trees from their swales and wondered why there were other residents who had not removed their trees.

Mayor Castro stated that Mr. & Mrs. Buncome's trees were newly planted. Mrs. Buncome replied that her trees were not newly planted.

Commissioner Balius stated that he recalled the trees in swales code was placed on hold from being cited until further discussion.

Mayor Castro stated that there had been three (3) town managers since the trees in swales ordinance discussion was put on hold. Mayor Castro stated that the Town was going to try to improve the trees in swale ordinance by allowing some trees in the swales but not all trees in the swales. Mayor Castro gave direction to Town Manager Paul Carlisle to have staff come up with a reasonable number of trees allowed in swales and make other modifications to the trees in swales ordinance.

Commissioner Balius recommended that an inspector inspect swales for contouring at the time a resident comes in to apply for a tree in the swale permit.

Commissioner Osterman expressed that the Town had an obligation to mitigate danger, costs and risks related to trees in the swales. Commissioner Osterman also stated that it is important to encourage residents to beautify their properties. Commissioner Osterman stated that 25 feet between trees was excessive and recommended a permit process for trees in the swales.

Ms. Buncome asked how long it will be before a decision is made on the trees in swale ordinance.

Mayor Castro explained that a decision would take at least thirty (30) days. Mayor Castro directed Finance Director Cynthia Sementelli to bring back a modified tree in swale ordinance to the next Commission Meeting on July 19, 2006.

Commissioner Carey stated that trees in swales would cause more debris after hurricanes and recommended that extra fees be assessed for removal of the debris.

Town Manager Paul Carlisle stated that there would be a permit process for trees in the swales and the permit would include a maintenance agreement.

The Commission discussed the possibility of including a Hold Harmless Agreement in the permit application for trees in the swale.

Town Attorney Karen Roselli stated that a Hold Harmless Agreement cannot be transferred between owners or renters of a property unless the document is recorded and tied to the property.

Mayor Castro recommended that a document be recorded with Palm Beach County so that the document would be attached to a property that has received a permit for trees in the swale. Mayor Castro explained this process to the residents present for the discussion on the trees in swale ordinance.

Commissioner Osterman asked if anything could be done with trees in the swales that already exist.

Mayor Castro stated that properties that currently have trees in the swales would be grandfathered in.

Authorizing the Interim Town Manager to execute a consulting agreement with Paul Carlisle

Town Manager Paul Carlisle explained that the Town attorney revised the agreement by changing some of the wording and stated that the revised document was on the dias.

Motion: A motion was made by Vice-Mayor Daly to authorize Interim Town Manager Cynthia R. Sementelli to execute a consulting agreement with Paul Carlisle; Commissioner Carey made the second.

Authorizing the Mayor to sign the Stipulation of Settlement on the Sallent case

Town Manager Paul Carlisle explained that the stipulation was given at the Budget Workshop for the Mayor’s review.

Commissioner Carey asked how long it would be before a statue is placed on Dr. Sallent’s property.

Town Manager Paul Carlisle stated that it would be Dr. Sallent’s decision and that he has not had any conversations with Dr. Sallent regarding a timeline for a statue.

Commissioner Osterman asked if a timeline for a statue could be placed in the Stipulation of Settlement.

Town Manager Paul Carlisle stated that placing a timeline in the settlement would constitute regulating Dr. Sallent’s property, which the Commission does not have the authority.

Commissioner Carey stated that Dr. Sallent may never place a statue on the property.

Town Attorney Karen Roselli suggested that the Settlement be followed by a Resolution stating a timeline. Town Attorney Karen Roselli stated that a new Resolution would amend the prior Resolution.

Mayor Castro asked Town Attorney Karen Roselli if the Commission can make a motion to approve subject to a third attorney providing a Resolution stating a timeline.

Attorney Karen Roselli agreed to provide a Resolution stating a timeline for Dr. Sallent to place a statue on his property.

Vice-Mayor Daly asked the Commission how much time should be given to Dr. Sallent.

Mayor Castro recommended one (1) year as enough time for Dr. Sallent to place a statue on his property.

Commissioner Balius recommended thirty (30) days and stated that Dr. Sallent has had plenty of time to place a statue on his property.

Commissioner Osterman agreed that a timeline is needed.
