CALVIN, GIORDANO & ASSOCIATES – GIS CAPABILITIES

Providing GIS services for over 16 years to local government agencies:

- ✓ City of Greenacres
- ✓ City of Lauderhill
- ✓ Town of Cutler Bay
- ✓ Town of Bay Harbor Islands
- ✓ South Broward Drainage District
- ✓ City of West Park

GIS capabilities include:

- ✓ Data conversion
- ✓ Mapping support
- ✓ System Design
- ✓ Data management
- ✓ Technical liaison
- ✓ Data Development
- ✓ Data collection / analysis
- ✓ GIS portals with ArcGIS Online
- ✓ Onsite / Offsite Support

CGA's GIS environment:

- ✓ ESRI ArcGIS full suite V10.2.2
- ✓ GIS Development environment and production environment
- ✓ ArcGIS SDE utilizing Microsoft SQL database
- ✓ Support to Engineering and Survey Department

CALVIN, GIORDANO & ASSOCIATES – GIS CAPABILITIES

Past Project Details

✓ **Town of Cutler Bay – Storm water Asset Inventory**

Worked with the Survey Dept. to locate over 15,000 catch basins. The collected field data was converted and imported into GIS data layers and included catch basins and storm water infrastructure attributes.

✓ **South Broward Drainage District – Ongoing GIS Support**

Trained internal staff on GIS and provided all levels of GIS support to the South Broward Drainage District (SBDD) for over five years. Our services have included everything from facilities report maps to data collection assistance.

✓ **Town of Bay Harbor Islands – Public Works Utilities Conversion**

Converted Public Works infrastructure into a usable GIS system. CGA utilized all of the Town of Bay Harbor Islands as-built drawings to create a fully attributed utility infrastructure database. Deployed all layers to GIS web portal application on ArcGIS Online for staff to use.

CALVIN, GIORDANO & ASSOCIATES – GIS CAPABILITIES

Past Project Details

✓ City of Greenacres – Custom GIS Portal

- Selected to design and create a custom GIS web portal specifically tailored to the Planning and Engineering Department. The portal was designed to assist City staff with daily tasks such as, research, analysis, reports and printing. Requirements also included integration with Laserfiche document management system.
- Contracted to convert an existing Excel-based catch basin inventory located by City staff to GIS feature dataset. Data was validated by the City of Greenacres Public Works Department through field verification and map exhibits. Final deliverable was interactive PDF Atlas Book of all utilities.
- Contracted to convert an existing Excel-based street sign inventory located by City staff to GIS feature dataset. Each point was assigned unique IDs and mapped accordingly. The final product included a map book of all signs throughout the City along with an interactive PDF for utilization by the Public Works staff.

CALVIN, GIORDANO & ASSOCIATES – GIS CAPABILITIES

Past Project Details

✓ City of Lauderdale Lakes – Tree Inventory

This project was a collaborated effort between CGA's Landscape Dept., GIS staff and City staff. CGA created a tree and street feature Inventory Atlas Book.

✓ Town of Surfside – Mapping and Analysis for Evaluation Appraisal Report (EAR)

This project involved continued GIS support through out each mapping element, while working closely with Planners and Town staff to update all relevant layers and maps associated with the EAR. These elements included such maps as future land use, existing land use, flood zones, and all transportation elements. Analysis was perfumed on the data to determine acreages and percentages of land uses, demographics and site calculations for reports included in the final deliverable.
