Summary Explanation/Background: Each year, the Town of Lake Park celebrates National Arbor Day by inviting school children from local schools to participate in the Arbor Day Event with poems, songs and drawings honoring trees. This year, the National Arbor Day observance will take place in Blakley Park, at 10:30 a.m. on Friday, April 24, 2015. Several trees planted from prior Arbor Day Celebrations will be revisited to see their growth over time. Also, a new tree will be presented which will be placed at a disclosed location. Mayor DuBois tried to sort out the public comment cards received for each Ordinance, so that each person would speak under the correct Ordinance.

Motion passed 5-0.

Town Attorney Baird swore in all witnesses.

Attorney Baird explained that the ex-parte communication disclosures must include any verbal, written, texted, site visits, emails, and any other type of communication about the Ordinances and the nature of those communications.

Ex-parte Communication Disclosures:

Commissioner O'Rourke disclosed that he has had multiple email communications with residents and multiple site visits regarding both Ordinances.

Commissioner Rapoza disclosed that she has had multiple emails with residents regarding these Ordinances.

Commissioner Flaherty disclosed that he has had email communication with residents in which he has acknowledged their concerns. He stated that he has no communication with Earl Stewart.

Vice-Mayor Glas-Castro asked Attorney Baird to clarify what information needs to be disclosed. She asked if the information disclosed could be of a general nature. Attorney Baird explained that the nature of the comments should be disclosed, including the substance of the comments, in a summary manner.

Commissioner O'Rourke further disclosed that all the email communication he has received have been in opposition of the abandonment of the street and the zoning changes, including the site plan.

Commissioner Rapoza further disclosed that all the emails she has received regarding these Ordinances have been in opposition of both Ordinances. She stated that she has had casual discussions with Jason Stewart regarding the parking garage site plan. She read an email from Jason Stewart asking for her support regarding these Ordinances and the project. She stated that she had responded to the email that she was in favor of the project prior to viewing the site plan of the proposed building and the abandonment of E. Jasmine Drive.

Commissioner Flaherty further disclosed that the emails he received had been in opposition of the Ordinances and he responded to the emails acknowledging receipt of emails to the residents and that their concerns would not be overlooked.

Vice-Mayor Glas-Castro disclosed that she had received numerous emails opposing the proposed project, questioning the public benefit, and questioning the compatibility of the residential uses to the adjacent properties. She stated that the Planning and Zoning Board had received a petition dated February 10, 2015, which had been provided to the Commission. One resident's concern was that the applicant was looking to rezone from a Commercial (C)-1 District to a Planned Unit Development (PUD) because the project was too large for the property and that it was not consistent with the goals and objectives of the Town's Comprehensive Plan. She explained that she drove by the site this evening and Anne Booth of Urban Design Studios had called her yesterday to ask if she had any comments regarding the proposed projects. She explained that she did not have any comments at that point to discuss with Ms. Booth. She stated that the site plan was emailed to the Commission yesterday and she had not reviewed the plans until later in the evening.

Commissioner O'Rourke further disclosed that he responded to emails inviting residents to attend the Commission meeting.

Mayor DuBois disclosed that he received multiple emails and phone conversations with residents opposing the projects.

Community Development Director Nadia DiTommaso presented Ordinance No. 02-2015 the abandonment of E. Jasmine Drive and Ordinance No. 03-2015 rezoning of 1017 Federal Highway from Commercial -1 (C-1) to Planned Unit Development (PUD) (see Exhibit "A").

Commissioner O'Rourke asked for clarification as to when the public would have an opportunity to speak. Mayor DuBois stated that the Commission still needs to hear the applicant's presentation before public comment. Attorney Baird explained that since the Commission had agreed to combine both presentations, they could proceed. He stated that the Town Code has outlined a process with a staff presentation, followed by the applicant's presentation, Commission questions to staff and the applicant, followed by public comment. Mayor DuBois suggested that staff continue their presentation.

Chris Barry, Land Planner with Urban Design Kilday Studios presented the project (see Exhibit "B").

Commissioner O'Rourke stated he had a concern that the Town Code was not followed as it pertains to notice being provided to occupants of the properties within 250 feet of the site. He stated that in Section 72-5 (5) of the Town Code it states that "the names and addresses of owners or businesses or occupants of real property bounding and abutting the street, alley, or easements sought to be abandoned, and the property owners located within 250 feet thereof". He stated that there was a property within the 250 feet that was not notified. Community Development Director DiTommaso stated that the applicant provided labels and a list of property owners within 300 square feet of the property and staff prepared certified mail to those property owners based on the labels provided by the applicant. Commissioner O'Rourke asked if the list provided to staff contained the names of the occupants of the properties within 250 feet as the Town Code requires. Community Development Director DiTommaso stated staff does not typically include the list with the names and addresses of the property owners in the packet provided to the Commission. Commissioner O'Rourke asked if occupants of those properties were notified. Community Development Director DiTommaso stated that the list provided by the applicant was of property owners. Commissioner O'Rourke asked if the applicant went out to the occupants to notify them that this project was occurring. Community Development Director DiTommaso stated that she was not provided a list of occupants.

Commissioner O'Rourke stated that in Town Code Section 72-4 (b) "The Town Commission may approve an abandonment application if the applicant demonstrates, by clear and convincing evidence, that a right-of-way is no longer required for a public use and convenience. Any proposed abandonment of a public right-of-way shall demonstrate that such action furthers the health, safety and welfare of the Town's residents". He stated that a traffic study from 2003 was submitted as part of the application. Community Development Director stated that the new traffic study references the previous traffic study conducted in 2003 (see Exhibit "C").

Mayor DuBois asked if the documents were signed and sealed by the engineer. Community Development Director DiTommaso stated "yes". Commissioner O'Rourke asked questions of staff regarding the traffic study that staff was unable to answer. Mr. Barry offered to have additional analysis and traffic studies conducted.

Commissioner O'Rourke stated that in Section 72-7 (b), of the Town Code, it refers to the evaluation of the appraised value of the property. Community Development Director DiTommaso stated that a Florida Licensed Property Appraiser conducted the appraisal. Commissioner O'Rourke stated that two of the four properties appraised were not comparable with E. Jasmine Drive. Community Development Director DiTommaso stated that she did not invite the property appraiser to the meeting to answer questions regarding the methodology of the appraisals done. She suggested that the appraiser be invited to the next meeting to answer questions of the Commission. Attorney Baird stated that if the Commission feels that it would need those professionals in attendance to answer questions regarding their reports, then the Commission could continue the hearings to another date. He reminded the Commission that Ms. DiTommaso did not

write the traffic study reports or the property appraisal reports and therefore all she can do was confirm what was written in those reports. Mayor DuBois asked that all the professionals be invited to the next meeting to answer questions of the Commission.

Vice-Mayor Glas-Castro referenced page two of the staff report (see Exhibit "C"), which includes an affirmative statement that says "it has been determined that the right-of-way is no longer required for public use and convenience", but staff does not explain how that determination was made. Community Development Director DiTommaso stated that the traffic study was used to determine that there would not be a negative impact on E. Jasmine Drive. Vice-Mayor Glas-Castro stated that the staff report indicates that large commercial carriers would not be allowed to use Lake Shore Drive for exiting the dealership, even though there was an access point on Lake Shore Drive. How would the Town be assured that the access point would not be utilized? Community Development Director DiTommaso stated that conditions of approval could be included in the project to assure that the access point would not be utilized. She stated that the Planning and Zoning Board requested that signs be posted prohibiting exiting onto Lake Shore Drive. Vice-Mayor Glas-Castro expressed concern that the signs would not be enough to deter drivers from exiting onto Lake Shore Drive. She stated that in the staff report it states that the abandonment request was consistent with the Town's Comprehensive Plan, but it does not elaborate how it is consistent with the Town's Comprehensive Plan.

Commissioner Rapoza expressed concern with trucks on Lake Shore Drive, upgrading the drainage system on Lake Shore Drive, and the appraiser for the property was too low. She agreed that the consultants that conducted the appraisal and the traffic study should be at the next meeting to answer questions.

Commissioner Flaherty stated had many of his questions were answered during the applicant's presentation.

Mayor DuBois stated that according to the traffic study 500 trips turned onto E. Jasmine Drive and 200 trips onto E. Ilex Drive. He asked if most of the trips onto E. Jasmine Drive were trips going into the Earl Stewart property. Mr. Barry stated that additional analysis were needed to make that determination since the study was conducted in 2004. Mayor DuBois asked if the appraisals done of similar properties encumber. He clarified his question by stating that E. Jasmine Drive was a public right-of-way and has a number of utility easements associated with it, did those encumbers go to the value properties relative to the other higher value properties.

The Commission began their questions regarding the re-zoning of 1017 Federal Highway. See staff report as Exhibit "D".

Commissioner O'Rourke asked if phase three of the development (also known as the parking garage) would have an impact on the properties on Lake Shore Drive. Community Development Director DiTommaso stated that it would have a visual impact than what was currently on the site. Commissioner O'Rourke stated that staff's presentation includes recommendations to improve the esthetics of the area by including buffers. Community Development Director DiTommaso stated that it would improve the temporary use of the property by developing the site with a permanent structure. She

stated that the project includes landscaping buffers to further minimize the impacts on the south side of the project and staff does believe it would be an improvement to the site. Commissioner O'Rourke asked if staff considered the wall that would be built across from the condominiums. Community Development Director DiTommaso stated that the guidelines in the Town Code were all considered and anything further than those guidelines would be the desire of the Commission and discussed at a meeting. Commissioner O'Rourke commended the Planning and Zoning Board for suggesting that the project be a four-story building versus a five-story building. Community Development Director DiTommaso stated that luckily there was a public process where other considerations could be suggested. Commissioner O'Rourke asked if an abandonment progresses would require a PUD zoning change for that section of the property as well. Community Development Director DiTommaso stated that if the overall application was approved then a right-of-way could be abandoned and not incorporated into a PUD. She stated that in this case because the applicant was proposing the expansion of the PUD boundaries to incorporate the E. Jasmine Drive right-of-way, then yes a zoning change for that section of the property would be required. She clarified by saying that if the abandonment was approved it would need to go through the re-zoning and Future Land Use Map amendment process.

Commissioner O'Rourke questioned the public benefit to the residents in the area of the development.

Vice-Mayor Glas-Castro referenced conflicts regarding rezoning to a PUD of 1017 Federal Highway and E. Jasmine Drive between the staff report that was in the agenda packet and the staff report presented this evening. She stated that during tonight's presentation Ms. DiTommaso referred to just the parcel and that the abandonment of the street would be subject to separate rezoning. Community Development Director DiTommaso clarified that the abandonment would first need to be approved through the Ordinance process for the change of the rezoning and land use designations, which was why the application was considered for the 1017 Federal Highway property.

Attorney Baird understood that the right-of-way property and the south parcel would both be added to the PUD. He asked staff why were they both not in the rezoning Ordinance. Community Development Director DiTommaso stated that they were originally, but changed during the review process because the abandonment was not approved yet. Attorney Baird stated that he was not sure how adoption of the PUD could move forward when both of those parcels are not part of the PUD. He questioned how the site plan was contingent on both of those properties being used for development and how could the site plan be approved when the main property has been left out. Community Development Director DiTommaso explained that it would be a condition of approval of the abandonment and site plan.

Vice-Mayor Glas-Castro stated that the Ordinance was written as a simple rezoning from a C-1 to a PUD, which could also be the same as C-1 to C-2. She stated that what it does not take into account is what is required of a PUD as required in Section 78-77. She explained that the PUD should be considered as a package development with a site plan. She expressed concern moving forward legally with the way the project was being presented.

Mayor DuBois expressed concern with the zoning change without considering the site plan.

Vice-Mayor Glas-Castro stated that she reviewed the site plan to try to understand the phasing and could not understand the waivers that were being requested. She expressed concern with what was required in Section 78-77 of the Town Code and did not feel comfortable taking action this evening.

Mayor DuBois recapped the discussion regarding the consolidation of the abandonment into the rezoning and then the consolidation of the site plan into the zoning. Vice-Mayor Glas-Castro stated that both are legal issues that are important.

Commissioner Flaherty asked if the applicant had a “plan B”. Mr. Barry stated that at this point they do not have a “plan B”.

Mayor DuBois asked what was the current height in the C-1 district. Community Development Director DiTommaso stated that the Town Code sets the maximum height at 30 feet. Mayor DuBois asked if the applicant was proposing a three or four story building. Community Development Director DiTommaso stated that the applicant was proposing a four story building. Mayor DuBois asked if the Commission did not approve the road abandonment and the Commission did not approve the rezoning from C-1 to a PUD, then the applicant could propose the same development without the phasing of the projects. Mr. Barry stated “correct”. Mayor DuBois asked what was the total square footage of the project. Community Development Director DiTommaso stated that it was approximately 32,000 square feet per story or approximately 74,000 square feet. Mr. Barry explained that typically garage areas are not calculated in the total gross floor area because it was open space. Mayor DuBois clarified that the building between E. Ilex Drive and E. Jasmine Drive were not included in the gross square footage. He further explained that since the garage is not “under air” it was not included in the total development. Mr. Barry replied, “correct”. Mayor DuBois stated that it would be a total of 200,000 square foot project. He stated that the “by-right” development of that property, even without the unification of the PUD would be double what the applicant was proposing.

13. Angela Kauffman, 1105 Lake Shore Drive, expressed concern with the property values, the constructions, increase noise, pollutions, and the nature resources. She would like to see a "plan B".
14. Sam Baghdady, 12 E. Ilex Drive, provided his concerns in writing and a petition (see Exhibit "F").
15. Joann Webb, E. Ilex Drive, opposed the project.
16. Penny Broda, provided her concerns in writing (see Exhibit "G").

19. Diane Munroe, 722 Hawthorne Drive, asked for clarification regarding the March 2, 2015 Planning and Zoning Board meeting vote on the project. Community Development Director DiTommaso explained that the Planning and Zoning Board made a recommendation to the Town Commission at their March 2, 2015 meeting. Ms. Munroe expressed concern with the rezoning Ordinance, the structure being too large, the increase of traffic, and many other general concerns with the project.

Public Comment Closed:

Vice-Mayor Glas-Castro asked Mr. Barry how long would the vegetation take to mature. Mr. Barry stated that the growth was depicted in the presentation as three year.

Commissioner O'Rourke expressed concern that staff did not take into consideration the effect on property values.

Mayor DuBois expressed concern with how the commercial development works into the residential development around Lake Shore Drive and E. Ilex Drive. He stated that this project has taken so long to develop that everyone has become accustomed to seeing the open space. Mr. Barry stated that there were many concerned raised this evening. He stated that they would need to prepare for a future meeting where additional details are presented.

Mr. Barry clarified that the Town hired the appraiser that was used for the project, but Earl Stewart paid for it. Mayor DuBois suggested getting another appraiser and have the company clarify if the comparable were encumbered in the same way that this property currently is encumbered. Mr. Barry explained that he saw the right-of-way appraiser as separate than the evaluation of the surrounding property impact.

TOWN ATTORNEY, TOWN MANAGER, COMMISSIONER COMMENTS:

Town Attorney Baird had no comments.

Interim Town Manager Turner announced that the annual Easter Egg Hunt would take place on Saturday, April 4, 2015 from 9:00 a.m. until 11:00 a.m. in Kelsey Park for children 2 years old through 10 years old.

Commissioner Rapoza asked if the Commission would consider hosting a Palm Beach County League of Cities meeting at the community center on Singer Island. Vice-Mayor Glas-Castro explained that when hosting the meeting it should take place within the Town. She stated that the Mirror Ballroom was not large enough to host a League event. Mayor DuBois stated that several years ago, staff did an analysis of the cost of hosting the event. The event is too costly and the Town would need sponsors to pay for the luncheon. Commissioner Rapoza announced that she would not be attending the April 15, 2015 Commission meeting.

Commissioner Flaherty had no comments.

Commissioner O'Rourke thanked everyone for attending the meeting and expressing their opinions on the future of the Town.

Vice-Mayor Glas-Castro stated that on April 15, 2015 there is a Visioning Workshop scheduled. She asked if the workshop should be delayed until the Town Manager was on board. The Commission came to consensus to delay the Visioning Workshop. She stated that at the last Palm Beach County League of Cities General meeting the Mayor was acknowledged for his efforts with the Sober House legislative issue. She stated that at the League meeting they announced that the Palm Beach County Supervisor of Elections (SOE) was causing the qualifying period to be moved up because the State of Florida would be holding its Presidential Preference Primary (PPP) on a different date in March. She deferred to the Town Clerk for additional clarification. Town Clerk Mendez explained that as a result of the Governing signing into legislation that the PPP would be held on the third Tuesday in March, each municipality was strongly encouraged by the SOE to change their municipal election to coincide with the PPP. She explained that the PPP was being conducted on March 15, 2016, which is the third Tuesday in March (the

municipal elections are held on the second Tuesday in March). She explained that the SOE has announced that the equipment could not be updated quickly enough to support two elections in such a short period of time. She explained that an Ordinance would be brought forward at either the April 15th or May 6th Commission meeting changing the qualifying period for the municipal elections that take place on the same year as the PPP. Vice-Mayor Glas-Castro stated that a memorandum was distributed during the League meeting explaining what municipalities would need to do in order to support that legislative change. Town Clerk Mendez explained that the March 2016 municipal election qualifying period would be from Tuesday, November 24, 2015 through Tuesday, December 8, 2015.

Mayor DuBois stated that he is not sure why the Palm Beach County League of Cities has credited him for the Sober Home issues when former Mayors and Commissioners began the process. He thanked the public for attending and conducting themselves so respectfully during of the process.

ADJOURNMENT

There being no further business to come before the Commission and after a motion to adjourn by Commissioner Flaherty and seconded by Commissioner Rapoza, and by unanimous vote, the meeting adjourned at 10:45 p.m.

CODE REQUIREMENTS FOR ABANDONMENT

APPLICATIONS

- Review by the Town Engineer; Public Works Director; Town Attorney; and Community Development Director
- Receipt of no objection letters from the various utility companies
- Posting of notification signs around the property
- Appraisal from a Florida Licensed real estate appraiser and payment
- Determination by the Town Commission as to whether the abandonment will deprive any adjacent businesses or individuals of a reasonable means of ingress or egress; whether the abandonment will reduce adjacent property values; and whether receiving compensation and abandoning the ROW is to the best interest of the community as a whole

STAFF DETERMINATION

Will not negatively impact the community as a whole for the following reasons:

- Traffic analysis results
- Upgrade the site and provide buffering
- Increase in tax revenue
- Confirmation from all utility companies

STAFF RECOMMENDATION

APPROVAL with conditions 1 through 7:

- (1) At the time the Applicant pays the appraised value of the Property to the Town, the Applicant shall remove the traffic signs along East Jasmine and Lakeshore Drive, and provide these signs to the Town of Lake Park's Public Works Department.
- (2) The Applicant shall pay to the Town the appraised value of the Property within 90 days of the effective date of this ordinance. In the event that payment is not received from the Applicant within 90 days of the effective date of this ordinance, the abandonment shall become null and void.
- (3) The Applicant shall be solely responsible for the cost of the reconstruction of the east and west sides of the Property adjacent to Lakeshore Drive and North Federal Highway.
- (4) The drainage design for the Property shall be consistent with the future reconstruction plans for Lakeshore Drive and shall receive the appropriate permit from the Florida Department of Transportation. The Applicant shall submit a copy of the permit to the Community Development Department.
- (5) The Abandonment approval is contingent upon the approval of a site plan for the expansion of the site. The Applicant is also responsible for the rezoning and land use map amendment for the right-of-way once it has been abandoned.
- (6) AT&T requires a utility easement in lieu of the R/W occupancy to maintain the facilities as well as 2-4" PVC conduits crossing the property within the utility easement. These conduits would allow AT&T to place cables through the property without interfering with the business and the Applicant is solely responsible for this requirement.
- (7) The Applicant is solely responsible for the removal of the FPL street lights, poles, and cables as part of abandoning the Right-of-Way. The Town understands there will be a charge for the removal of these facilities, and arrangements have already been made with Earl Stewart for payment of the removal.

REZONING APPLICATION 1017 FEDERAL HIGHWAY

TOWN COMMISSION

Wednesday, April 1, 2015

GENERAL LOCATION

REQUEST

- ❖ Applicant: Urban Design Kilday Studios
- ❖ Owner: Commercial Investments LLC
- ❖ Proposal: Dealership Expansion (*requires separate site plan/special exception use approval*) – requires an amendment to the existing PUD boundaries = Rezoning of 1017 Federal Highway

The East Jasmine Drive right-of-way is being considered separately for abandonment. If approved by the Town Commission, a future land use map amendment and rezoning of this area will be brought forward as separate agenda items.

OVERALL SITE HISTORY

(1215 Federal Hwy)

- ❖ Was constructed in the mid to late 1970's on 4.47 acres
- ❖ Original development of the Site included a 14,200 S.F. Park Center hardware store
- ❖ Planned Unit Development (PUD) was approved in 2003 and approved by RES 14-05-03
- ❖ PUD regulations included:
 - (1) a display parking setback of 15 feet instead of 25 feet;
 - (2) to allow for the spacing of shade trees along Federal Highway to be 30 feet instead of 20 feet;
 - (3) the elimination of wheel stops;
 - (4) no planters on the roof of the garage;
 - (5) to allow a 40-foot freestanding monument sign to replace the then conforming 15-foot freestanding monument sign. The code currently allows a maximum 10-foot height for monument signs; therefore, the application proposes to remove this second existing monument sign and replace it with a 10-foot compliant sign by July 5, 2016 which is prior to the Phase 1 construction completion as proposed and consistent with the Town's compliance schedule for nonconforming signage.

OVERALL SITE HISTORY (1017 Federal Hwy)

- ❖ 1969: 111-unit hotel (Journey's Inn); 2,150 S.F. restaurant known as the El Colonial
- ❖ 2004: application to expand dealership and abandon East Jasmine right-of-way. Abandonment approved by Resolution 43-07-04, but expansion never occurred therefore abandonment approval became null and void
- ❖ 2010: Owner requested permission to demolish structures; pave/landscape lot; and temporarily utilize for storage with office trailer (temporary uses are ongoing with a January 2016 expiration pursuant to Resolution 03-01-15 approved by the Town Commission)

PROPOSED SITE PLAN

*(will be considered separately at the
April 15, 2015 meeting)*

REVIEW CRITERIA

Consistency with Town Zoning Code:

As part of the proposed development for the site, the Applicant has applied to rezone the parcel immediately south of the right of way, having an address of 1017 Federal Highway. The rezoning is necessary in order to incorporate this property into the PUD zoning district designation which has already been assigned to the Earl Stewart Toyota property located at 1215 Federal Highway.

Additionally, this rezoning includes a separate Master Site Plan application whereby the Applicant proposes a 3-Phase development plan which is a requirement of the PUD and will be considered as a separate agenda item for approval.

Consistency with the Town's Comprehensive Plan:

1017 Federal Highway has a future land use designation of "Commercial/Residential" which allows for commercial-only PUD developments without a residential component. The proposed expansion of the vehicle sales dealership with a PUD designation is consistent with this future land use designation.

RECOMMENDATION

PLANNING & ZONING BOARD considered this application at their February 2, 2015 and March 2, 2015 meetings and recommended **APPROVAL (4-1)** to the Town Commission on March 2, 2015.

Staff Recommendation: **APPROVAL** of the proposed ORD on 1st reading.

*****2nd reading of the Ordinance is required and will be considered on the same agenda as the Site Plan/Special Exception Use Resolution, scheduled for April 15, 2015*****

Drainage

- ❑ Wastewater (sewage) discharges to the Seacoast Utility Authority sanitary sewer system in Lake Shore Drive and is routed to their wastewater treatment plan. The maintenance areas include floor drains which pass through an oil/water separator to skim off pollutants before the water reaches the Seacoast sanitary sewer system.
- ❑ Drainage from rainfall is stored underground in the exfiltration trench system for treatment before it discharges through a water control structure to the Lake Shore Drive storm drainage system. Discharge from the car maintenance areas don't enter this drainage system (and therefore aren't directed to the nearby water bodies); as outlined above, the maintenance area floor drains are directed to the Seacoast sanitary sewer system instead.

Summary Explanation/Background:

STAFF REPORT

The Town of Lake Park is the fee simple owner ("Owner") of approximately 0.49 acres of the public right-of-way known as East Jasmine Drive ("Subject Property")...

The Town received a request from Earl Stewart, LLC and Commercial Investments, LLC to purchase the subject site. Part of the abandonment application involves getting an appraisal...

\$300,000. The abandonment application ("Application") was submitted by Mr. Brad Jankowski, P.A. attorney and agent for Earl Stewart, LLC and Commercial Investments, LLC ("Applicant"), requesting that the Town of Lake Park abandon East Jasmine Drive between North Federal Highway and Lakeshore Drive at a sale price of \$300,000, as appraised and required by Town Code. With this abandonment, the Applicant proposes to expand the boundaries of the existing Earl Stewart Toyota Planned Unit Development (PUD) to include an additional sales car showroom with display spaces; additional interior service bays; administrative offices; an enclosed car wash location; as well as a 4 story parking garage structure for additional display spaces and additional landscaping around the entire property. The Master PUD Site Plan approval is contingent on the approval of this abandonment and will be presented as a standalone Resolution at the April 15, 2015 Town Commission meeting.

Town staff reviewed the Application, and determined that the proposed abandonment is for the most part, consistent with the Town's Code of Ordinances dealing with the abandonment of rights-of way in Chapter 72 of the Town Code. Please refer to the Applicant's Justification Statement.

It has been determined that the right-of-way is no longer required for the public use and convenience. More specifically, a traffic analysis rendered by Yvonne Ziel Traffic Consultants (which also references a previous analysis performed by Pinder Troutman Consulting, Inc.) concluded that the closure of East Jasmine Drive between North Federal Highway and Lakeshore Drive will not result in a deterioration of the operations on the adjacent East Ilex Drive. With this abandonment and with the proposal to expand the boundaries of the Earl Stewart Toyota PUD which includes additional landscaping around the property, the result will further insulate the residents living along Lake Shore Drive from the commercial uses, noise, and traffic along North Federal Highway, without limiting their access from Palmetto Road and East Ilex Drive. Large commercial carriers would no longer be allowed to use Lake Shore Drive to enter or exit the dealership through conditions of approval on the site plan application, further minimizing commercial impacts along the residential corridor.

The abandonment request is consistent with the Town's Comprehensive Plan and furthers the health, safety and welfare of the Town's residents by providing a highly-landscaped open-air area around the entire perimeter of the site along with upgrades in the drainage system. By retrofitting this area, the surrounding property values could potentially improve as well. Furthermore, in transferring the ownership of the roadway, the Town would benefit in additional tax revenues from Earl Stewart Toyota as well as eliminate the responsibility of maintaining this roadway. In addition, Policy 1.8 of the Town's Comprehensive Plan states that new development shall be permitted only when central water and wastewater systems are available or will be provided concurrent with the impacts of development. The proposed abandonment with the future intention for development will not deviate from this requirement. The property is already developed with commercial uses, it is not anticipated that there will be any impacts on the existing water and sewer system.

Written confirmation from all public utility companies confirming that the proposed abandonment would not adversely affect the individual utilities have been received and these include, Comcast, American Telephone and Telegraph (AT&T), Seacoast Utility Authority, Florida Public Utilities (FPU), and Florida Power and Light (FPL). AT&T has included a requirement which is listed as condition of approval #6 below and FPL has also included a requirement listed as condition of approval #7 below (also included in the proposed Ordinance).

The proposed abandonment requires a public hearing and notice of the abandonment Ordinance to be published in a newspaper of general paid circulation in the Town and of general readership in the Town, 10 days prior to the adoption hearing. This notice will be placed in Palm Beach Post on April 5, 2015. Certified notices to all owners within 300 feet of the Subject Property were mailed on March 20, 2015.

In addition to the Town staff review, the Town Attorney also prepared a review letter for the Town Commission to consider. In addition to the information provided herein, the Town Commission must determine whether abandoning the right-of-way, with fair compensation, is to the benefit of the community as a whole. The commission may recommend additional conditions as appropriate for the requested abandonment.

Town staff recommends that the Town Commission recommend **APPROVAL** for the abandonment request of East Jasmine Drive between North Federal Highway and Lakeshore Drive, subject to the following conditions:

1. At the time the Applicant pays the appraised value of the Property to the Town, the Applicant shall remove the traffic signs along East Jasmine and Lakeshore Drive, and provide these signs to the Town of Lake Park's Public Works Department.
2. The Applicant shall pay to the Town the appraised value of the Property within 90 days of the effective date of this ordinance. In the event that payment is not received from the Applicant within 90 days of the effective date of this ordinance, the abandonment shall become null and void.
3. The Applicant shall be solely responsible for the cost of the reconstruction of the east and west sides of the Property adjacent to Lakeshore Drive and North Federal Highway.
4. The drainage design for the Property shall be consistent with the future reconstruction plans for Lakeshore Drive and shall receive the appropriate permit from the Florida Department of Transportation. The Applicant shall submit a copy of the permit to the Community Development Department.
5. The Abandonment approval is contingent upon the approval of a site plan for the expansion of the site. The Applicant is also responsible for the rezoning and land use map amendment for the right-of-way once it has been abandoned.
6. AT&T requires a utility easement in lieu of the R/W occupancy to maintain the facilities as well as 2-4" PVC conduits crossing the property within the utility easement. These conduits would allow AT&T to place cables through the property without interfering with the business and the Applicant is solely responsible for this requirement.
7. The Applicant is solely responsible for the removal of the FPL street lights, poles, and cables as part of abandoning the Right-of-Way. The Town understands there will be a charge for the removal of these facilities, and arrangements have already been made with Earl Stewart for payment of the removal.

Summary Explanation/Background:

STAFF REPORT (Site Plan Application will be presented by Resolution at the April 15, 2015 Town Commission meeting)

HISTORY: The Earl Stewart Toyota vehicle sales dealership was constructed in the mid to late 1970's on 4.47 acres of property with the address of 1215 Federal Highway (the "Site"). The original development of the Site also included a 14,200 square foot Park Center hardware store. The old dealership and Park Center Hardware remained until 2003 when the Property was approved as a PUD by the Commission's adoption on May 21, 2003 of Ordinance 14-05-03. This resulted in the redevelopment of the Site as it exists today. The Ordinance creating the PUD included these waivers to the land development regulations of the Code: (1) a display parking setback of 15 feet instead of 25 feet; (2) to allow for the spacing of shade trees along Federal Highway to be 30 feet instead of 20 feet; (3) the elimination of wheel stops; (4) no planters on the roof of the garage; (5) to allow a 40-foot freestanding monument sign to replace the then-conforming 15-foot freestanding monument sign. The Code allows a maximum 10-foot height for monument signs; therefore, the application proposes to remove this second existing monument sign and replace it with a 10-foot compliant sign.

In 1969 the Commission approved the development of a 2.23 acre parcel with an address of 1017 Federal Highway. This property is located immediately to south of the Earl Stewart Toyota dealership. The Commission's approval authorized the development of a 111-unit hotel known as the Journey's Inn, and a 2,150 square foot restaurant known as the El Colonial. The applicant agreed to demolish the Journey's Inn and Colonial restaurant in exchange for the "temporary" use of the 2.23-acre parcel for vehicular storage and the placement of an office trailer thereon while the applicant finalized plans for the expansion of the dealership. Since then, this "temporary" use has been extended several times, each time predicated on the applicant's preparation of a site plan for the expansion of the dealership.

Together with the applicant's 2004 application to expand the dealership, an application to abandon East Jasmine Drive as a public right-of-way was submitted. The purpose of the abandonment application was to acquire the right-of-way to allow for the expansion of the dealership on to the property which was formerly occupied by Journey's Inn and the El Colonial restaurant. Resolution 43-07-04 approved the abandonment with conditions. However, the applicant did not meet the conditions associated with the abandonment and as a result the abandonment became null and void. Accordingly, East Jasmine Drive remains a public right-of-way.

OVERALL PROPOSAL: Urban Design Kilday Studios ("Applicant") as the authorized agent for Stewart Toyota LLC and Commercial Investments LLC (together referred to herein as "Owner") is again proposing to expand the dealership onto the 1017 property. The dealership operates out of 1215 Federal Highway, which is owned by Earl Stewart, LLC and 1017 Federal Highway (the former Journey's Inn/Colonial restaurant property), owned by Commercial Investments, LLC ("Property Owner") to store and display vehicles used by the dealership.

The Applicant is requesting to amend the existing PUD to include the East Jasmine right-of-way, once abandoned, and the 1017 Federal Highway property within its boundaries. The applicant then proposes to develop the amended PUD in three development phases. The first phase includes a 3-story extension of the existing dealership building onto part of East Jasmine Drive. The extension will create space for an interior car wash, interior preparation area, interior service bays, interior offices, and vehicle display and parking areas. The second phase is focused on the creation of interior office spaces from the shell area of the 3-story extension to be developed in phase 1. The third phase proposes the development of a new parking garage on the existing 1017 Federal Highway parcel with additional parking and display areas.

The applicant also submitted an Abandonment Application. Prior to the approval of the PUD, the abandonment of East Jasmine Drive together with its fair market value compensation and public benefit justification will have to be reviewed and approved by the Town Commission.

Since the applicant proposes to extend the boundaries of the existing PUD to other properties, these properties will also need to be rezoned to a PUD. If the abandonment and rezoning are approved, the Applicant may then proceed with the site plan for the PUD which includes the special exception use of "vehicle sales establishment" for the property encompassed within the PUD. Finally, the applicant will be required to replat the Site.

Figure 1: Aerial View of Existing Site
(image not to scale; for visual purposes only)

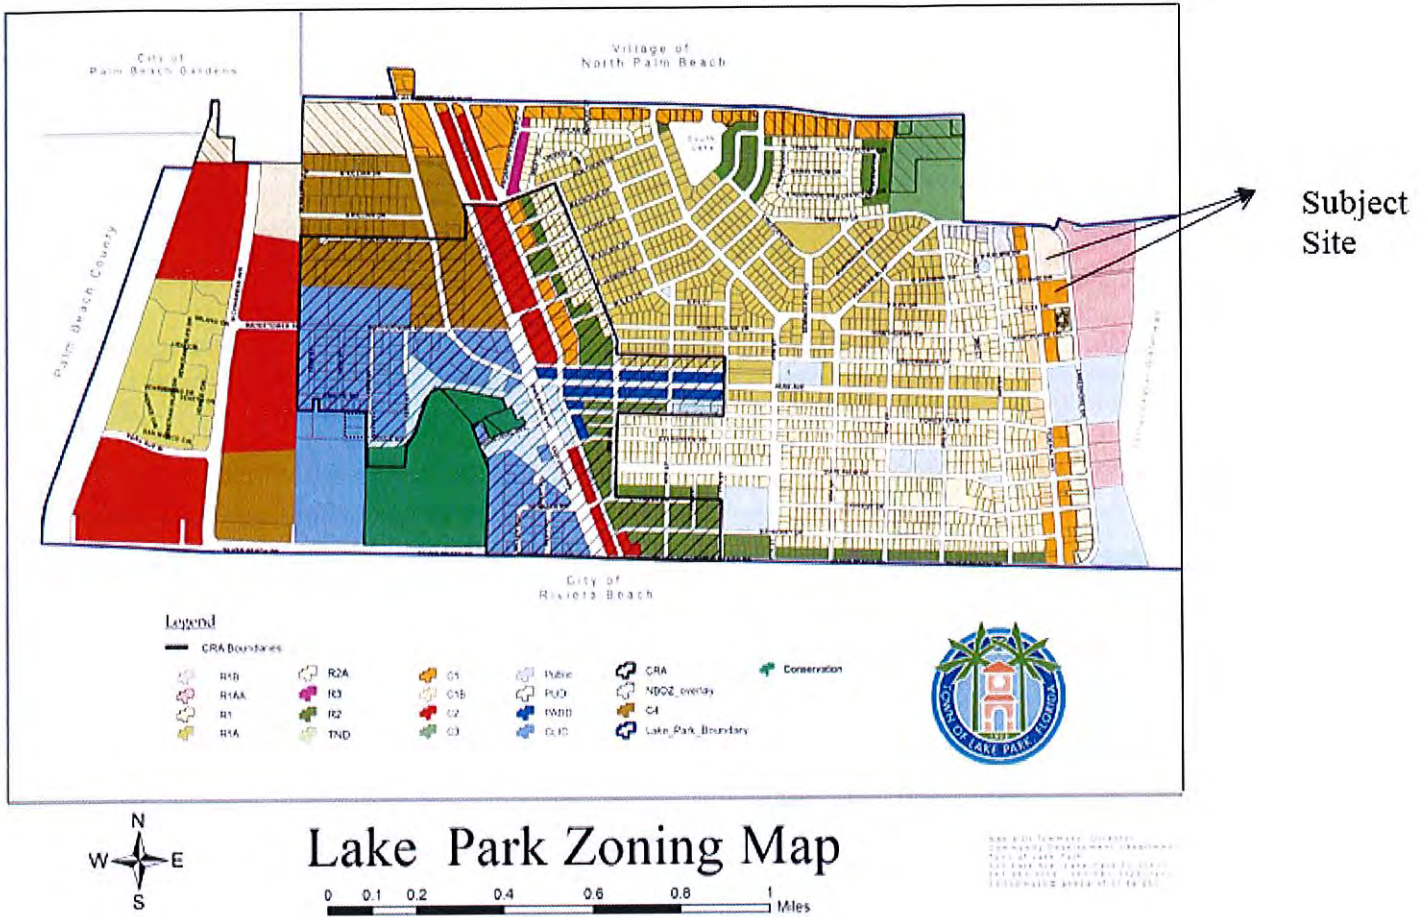

Figure 2: Aerial Image of Site with Proposed Boundaries

The East Jasmine Drive right-of-way is being considered separately for abandonment. If approved by the Town Commission, a future land use map amendment and rezoning of this area will be brought forward as separate agenda items.

LAKE PARK ZONING MAP

Adjacent Zoning

(1215 Federal Highway):

- North: Village of North Palm Beach
- South: Commercial 1 (C-1) Business District/Residential-2A
- East: Residential 1AA
- West: Commercial 1 (C-1)/Commercial 1B Business District

Existing Zoning:

- 1215 Federal Highway: Planned Unit Development (PUD) with underlying Commercial-1 Business District (C-1)
- 1017 Federal Highway: Commercial-1 Business District (C-1)

APPLICATION FOR REZONING

The Application to expand the PUD boundaries to include the property at 1017 Federal Highway and the East Jasmine Drive right of way (**contingent upon its abandonment**) necessitates the rezoning of these two properties. **The rezoning of the East Jasmine Drive right-of-way will be considered at a separate hearing following the approval the abandonment application and consideration by the Local Planning Agency (LPA) for the future land use map amendment of this right-of-way as well.**

Consistency with Town Zoning Code:

As part of the proposed development for the site, the Applicant has applied to rezone the parcel immediately south of the right of way, having an address of 1017 Federal Highway. The rezoning is necessary in order to incorporate this property into the PUD zoning district designation which has already been assigned to the Earl Stewart Toyota property located at 1215 Federal Highway.

Consistency with the Town's Comprehensive Plan:

1017 Federal Highway has a future land use designation of "Commercial/Residential" which allows for commercial only PUD developments without a residential component. The proposed expansion of the vehicle sales dealership with a PUD designation is consistent with this future land use designation.

PLANNING & ZONING BOARD considered this application at their February 2, 2015 and March 2, 2015 meetings and recommended APPROVAL (4-1) to the Town Commission.

Recommended Motion: I MOVE TO APPROVE ORDINANCE 03-2015 on 1st READING WITH THE CONDITION OF APPROVAL AS LISTED IN THE PROPOSED ORDINANCE.

Re: Stewart Toyota Commercial PUD application - 1017 US Highway No1

Dear Ms DiTommaso,

I am writing this letter concerning the approval of the PUD application from Stewart Toyota that will not meet ALL the Goals, Objectives and Policies of The Town of Lake Park's Comprehensive plan which reflects The Town's vision for its future.

With the Town's Goal to ensure **the historic small town character** of Lake Park is maintained, while fostering development that is **compatible with existing neighborhoods** of residential, small commercials and green spaces, I requested that you reconsider your recommendation for the PUD application to move forward.

Besides failing the Town's Comprehensive Plan Goals, Objectives and Policies, the application was also not met several key items of The Town's Code of Ordinances per the attached list.

With a history of delay from several resolutions 20-05-10, 40-11-11, 09-0612 through 41-10-13 and so on, I also wondered about the future of this development or just another promise.

Thank you for your consideration.

Sincerely yours,

Cat Nguyen

Hello, my name is Sam Baghdady and I am here representing Cedar Crest Homeowners Association and all the abutters and neighbors who have signed my petition against this project. All of you have received a copy. Currently we have over 100 signatures. This petition represents the people of Lake Park's opinion.

The original intent of Lake Shore Drive was always residential and now to replace it with a 4 story parking garage building is completely going against what this neighborhood and area was suppose to look like and be. Please remember, you are dealing with neighbors who have been here for over 40 years.

The new structure is going to be 37-38 feet tall with roof parking and 45-46 foot tall elevator shaft towers at the ends. The Cedar Crest Townhouse complex across the street only stands 24-25 feet in height. Also, the new dealership is very commercial and industrial looking in the middle of a residential neighborhood. Roof top parking makes the structure look very commercial.

This development will completely overshadow our properties, bringing down our values and make our area less desirable to live in.

The other negative effects include restricting our light and breeze. Noise and bright spotlights at all hours of the day and night. The constant loading and unloading of cars and all the noises associated with it. A car wash constantly running right near the residential properties. Also, heavy traffic and congestion to a residential area.

That being said, I ask this board to please limit the height of the structure by keeping it C-1. This will limit the height of the garage to 30 feet. Also, make all sides of the structure facing residential properties as residential looking as possible. The use of louvers and ivy to hide the cars.

Also, I noticed the setbacks are greater and the heights are less on the older portions of the dealership, where there is less residential. Why are we maximizing the heights and setbacks on the portion of the dealership closest to the residential properties.

Please, I ask this board to put yourselves in our position. There has to be a compromise so that we can all be happy.

All we are doing is accommodating Earl Stewart and Toyota, what about the people.

Please remember, it is the people that make a community, not the businesses.

~~Thank you~~

This project is coming at the expense
of the citizens.

Thank You.

Subject: Petition Against Planned Unit Development Amendment (Site Plan
and Rezoning) and Special Exception Use Approval

Petition

The following is being submitted on behalf of the neighbors and abutters located within 300 feet of the subject property in Lake Park, Florida. Mr. Earl Stewart, the distributor of the Toyota products in South Florida, is currently pushing a plan to annex Town property to his own and convert residential property to commercial in order to erect a five story car storage building adjacent to residences that have existed for a long time. Some of many concerns include: changing the character of the town, the increase in traffic, health problems that can arise from toxic fumes, and possible wind and light issues.

Therefore, we the undersigned, object strongly to the plan and ask the planning board to turn it down due to the nonconformance nature of his request that changes the character of the Town and a total disregard to the people living in the area.

My name is Penny Broda and I am 13 year resident of the Town of Lake Park and reside at 8 East Ilex Drive.

I am here tonite to ask all parties involved to please compromise.

Earl Stewart Toyota would like more parking.

The residents of East Ilex Drive and Lake Shore Drive would like:

1. Less noise than is currently being provided.
2. A parking garage that will not be so invasive of our privacy and similar height to surrounding buildings

NOISE POLLUTION = beeping car horns and loud delivery vehicles at all hours of the nite

The noise pollution is still an issue and as much as Toyota says they are working on eliminating some of these issues, the residents have yet to "HEAR" it happen.

PRIVACY = being able to see in my bedroom and bathroom windows from parking garage

As a compromise, I would like to recommend the maximum height of the new parking garage be 30 feet with stair towers maxing out at 35 feet.

(I am NOT in favor of re-zoning the property.)

(Currently the planned garage is at 39 feet with stair towers at 45 feet.)

Stu Stewart mentioned at the "Meet and Greet" on 03.28.15 that he would look into planting the trees/bushes on East Ilex Drive and Lakeshore Drive sooner than later so the 3 year growth plan would basically be in place prior to building the garage and give residents the "forest" look (quote from Stu Stewart) vs. current parking lot and a future parking garage view. **I think this is a GREAT IDEA.**

In closing, I would like to ask each and every one of you to put yourself in my shoes..... How would it make you feel to walk out your front door each day and have a view of 40+ foot concrete parking garage ?

I'm asking for a compromise. I'm asking that the property remain zoned as a C-1.

THANK YOU.

Penny Broda

Summary Explanation/Background: Prior to July 1, 1973 the Town Commission adopted a municipal Charter, which contains among other matters, provisions pertaining to operations of the Town under a Town Commission-Town Manager form of government. Florida State Statute 166.021(4) and 166.31, set forth the procedures to be followed in amending municipal charters adopted prior to July 1, 1973, which charters have not been subsequently readopted. Amendments to municipal charters provisions which were adopted prior to July 1, 1973, such as the Town's Charter, may be made by Ordinance if the proposed changes do not affect the basic organizational and administrative structure of the municipal government, and if the proposed changes do not fall within

any of the statutorily excluded areas which expressly require a referendum in order to adopt the proposed charter amendment. The proposed amendments in Article XVI do not fundamentally alter the basic organizational or administrative structure of the Town's Commission-Manager form of government as set forth in the Town Charter.

The following sections are proposed to be modified:

Section 11 – Special Elections; Section 13 – Date of General Elections; Section 22 – Form of Ballot.

WHEREAS, pursuant to the provisions of Section 166.021(4), Fla. Stat., amendments to municipal charter provisions which were adopted prior to July 1, 1973, such as the Town's Charter, may be made by ordinance if the proposed changes do not affect the basic organizational and administrative structure of the municipal government, and if the proposed changes do not fall within any of the statutorily excluded areas which expressly require a referendum in order to adopt the proposed charter amendment; and

WHEREAS, the Town Commission has determined that certain sections of Article XVI of the Town Charter should be amended; and

WHEREAS, the proposed amendments in Article XVI do not fundamentally alter the basic organizational or administrative structure of the Town's Commission-Manager form of government as set forth in the Town Charter, or pursuant to Section 166.021(4), Fla. Summary Explanation/Background: The Town Code of Ordinances Chapter 2, Article IV, is entitled "Boards, Commissions, and Committees", which authorizes the Town Commission to appoint members to certain standing boards, Commissions, and committees. Section 2-111 of this Chapter provides for each board, Commission, or committees to elect a Chair and officers from their membership, including a recording secretary. The current language pertaining to the selection of a recording secretary has proven to be a challenge for the boards in the past.

Staff is proposing the following three (3) amendments to this section of the Code:

1. Amend the title from “Boards, Commissions, and Committees”, to “Boards, and Committees” and remove the word Commission.
2. Each board shall annually elect a chair from its membership and a vice-chair at their first meeting of each year instead of the month of January.
3. The Town Manager shall assign a staff member to be the recording secretary who shall be responsible for producing minutes of the board or committee meeting.

Recommended Motion: I move to approve Ordinance 05-2015 on first reading.

Summary Explanation/Background:

The Town Commission has approved two extensions of the Chris Wayne & Associates, Inc. (CWA) landscape maintenance contract for the Lake Park Harbor Marina landscape maintenance for Fiscal Year 2015. The latest extension, approved at the January 7, 2015 Town Commission meeting, will expire on April 30, 2015. Staff is recommending a third contract extension until a new contract is in place. The current contract with CWA is \$2,907.42 per month.

CWA is agreeable to a contract extension through September 30, 2015 (see attached Letter of Agreement). The solicitation for the marina landscape maintenance was advertised on April 12, 2015. The bid opening is scheduled for May 13, 2015. The RFP package is written to allow the Town Commission to elect to commence a new contract for maintenance in July or on October 1ST. The recommendation for the contract commencement date of the new contract will be based on the monthly price of the new contract versus the current monthly cost using CWA. The recommendation for the award of a new marina landscape maintenance contract and time extension, if desired, will be on the June 3rd Town Commission meeting agenda.

Recommended Motion: Based on the bid opening date, I move to approve a time extension of the Lake Park Harbor Marina landscape maintenance contract with CWA until a new contract is in place.

Dear Mr. Dellago:

RE: Letter of Agreement
Contract Extension for CRA District Landscape Maintenance
Contract Extension of Lake Park Harbor Marina Landscape Maintenance

Chris Wayne and Associates, Inc. (CWA) currently perform landscape maintenance within the Lake Park CRA District under a contract extension approved by the Lake Park CRA Board on January 7, 2015. The compensation for this service is \$6,330.00 per month. The contract, with the extension, will expire on April 30, 2015.

Chris Wayne and Associates, Inc. currently perform landscape maintenance at the Lake Park Harbor Marina property under a contract extension approved by the Lake Park Town Commission on January 7, 2015. The compensation for this service is \$2907.42 per month. This contract, with the extension, will also expire on April 30, 2015.

The Lake Park CRA and the Town of Lake Park have a need to extend the aforementioned contracts to the end of the fiscal year (September 30, 2015) at which time it is anticipated that new landscape maintenance contracts will commence. The current CWA monthly charges have been budgeted for through September 30th. We propose that CWA agree to an additional five month extension at the current rates while the Town publicly solicits bids for new, five year contracts (an initial three year contract with two, one year extension options). By re-bidding the contract, you will have the opportunity to adjust your rates to reflect current costs and expenses. In addition, the Town will be able to adjust its Fiscal Year 2016 Budget figures to allow for any rate increases that may arise from the competitive bidding process.

Please indicate your acceptance of an additional five month contract extension for both of CWA's current contracts and compensation by signing below and returning to the Town of Lake Park Public Works Department.

Respectfully yours,

J. David Hunt

Mid-year Budget Narrative

The Mid-year Budget adjustment is intended to keep the Commission informed of any significant changes that have occurred or are likely to occur in the current fiscal year. The following tasks have been accomplished in preparation for presenting this review:

- a. Monthly reports are available to all Department Directors;
- b. Also, periodic Fiscal Year Financial Reports are prepared and distributed to the Commission and Senior Staff;
- c. Additionally, the Finance Director has analyzed each fund and each department within each fund, meeting with Department Directors as necessary; and
- d. Finally, The Finance Director and the Interim Town Manager have met and reviewed the findings of the budget review process.

We are happy to report that thus far there are very limited adjustments that need to be made to the fiscal year 2014-15 Budget. As you will note, many of the adjustments are minor in effect but staff feels it important to keep the Commission informed of such adjustments and where funding is moved between funds or increases or decreases revenue. Adjustments are discussed below and are listed in detail on Attachment "A".

GENERAL FUND

In the General Fund staff recommends adjusting the following revenue items (corresponding Item numbers appear on Attachment A): Item 1 – Two cell tower related changes have occurred since the budget was adopted; we were informed that the Sprint tower is being decommissioned thus reducing the Town's revenue, and the initial study annual fee for the Metro PCS tower has been received. Item 2 – The Town's relationship with Hybird changed to a revenue sharing model reducing both the Town's revenue and expense.

Expenses that require adjustment include: Item 3 – The movement of Salary expenses and related items from the Town Manager department to the Human Resources department. Item 4 – Replacing the curtains and draperies in the Mirror Ballroom. Items 5, 6, & 7 – Are adjustments that put the funding for small expenses where it is needed. Item 8 – Corrects a calculation error in the amount of the Palm Beach County Fire/Rescue contract. Item 9 – Adjusts the amount of funding that was required by the actuary to maintain the Retired Police Officers Pension Fund. Item 10 – is both in revenue and expense as a housekeeping adjustment designed to simplify the budget while still maintaining an account with a balance as a placeholder.

INSURANCE FUND

In the Insurance Fund staff recommends increasing the amount available for any unknown deductibles by the unbudgeted amount received as the refund of prior year expenses.

SPECIAL PROJECTS FUND

The Town has been awarded a Florida Department of Justice grant in the amount of \$5,995. It is recommended to increase both revenue and expense by this amount.

MARINA FUND

In the Marina Fund staff recommends adding to the budget the funding that was appropriated by the Commission on August 20, 2014.
